Professional background of the CEO of NETA Venture Building. NETA is a web development studio and does not provide healthcare services.

DIEGO VELASCO RIVAS

HAIR TRANSPLANT TECHNICIAN · HEALTHCARE ASSISTANT (TCAE)

I have taken part in **more than 450 hair transplants** and worked with **more than 20 trichologists** from different countries. My goal in every transplant: a safe procedure and a natural result that helps patients feel better about themselves. As a full-stack developer, I also bring a digital perspective to the clinic.

HAIR TRANSPLANT EXPERIENCE

Instituto del Pelo (IDP) · Sarrià, Barcelona — 2026 – present

Self-employed, on specific days. A clinic with more than 30 years' experience and one of the first to use FUE in Spain. With Dr Victoria Miranda (DHI) and Dr Fabián López (Sapphire FUE, BHT).

Insparya · Barcelona — 05/2026 – 08/2026

Full-time employee. More than three transplants a day, Monday to Friday.

Dr Joel Chara Cervantes · Barcelona and Palma — 04/2024 – 2025

CCCI – Centro de Cirugía Capilar Internacional (Grupo Tufet), Ephymer Clinic and Clínica Capilar Nadal.

Dr González · Pamplona and Girona — 2024 – 2025

Centro Médico Estético Lezkairu, the first clinic authorised in Navarre to perform hair transplants.

EDUCATION AND TRAINING

Specialisation course in Trichology and Hair Pathology — 2024 – 2025

EUNEIZ · Universidad de Vitoria-Gasteiz

Private training in trichology and hair pathology — 12/2024

Hospital Municipal Pedro A. Céspedes, Constanza (Dominican Republic). Theory and practice in an assisting role with real patients in Sapphire FUE, alongside Dr Danielby Pérez Santana and Dr Katherinne Abreu.

Technician in Auxiliary Nursing Care (TCAE) — 2023 – 2024

Escola d'Ocupació de Catalunya

Personal training, sports nutrition and therapeutic massage — 2020

Universidad Miguel de Cervantes

Continuing professional development

ISHRS and SERECAP resources · dermatology and general medicine

TECHNOLOGY

NETA Venture Building · Founder and CEO — 2026 – present

Business launch consultancy building custom-coded websites, with no templates. Current project: a patient acquisition website for a hair transplant clinic.

Software developer · Full stack — 2019 – present

Over 7 years' experience. Trained at Factoría F5 (2018 – 2019, 1,000 hours with a work placement). Currently studying advanced AI engineering.

Skills: HTML · CSS · JavaScript · technical and local SEO · WPO / Core Web Vitals · applied AI (Claude Code, Anthropic Academy)
